

Where Faith Gathers, Foundations Matter

**ST. HENRY
CATHOLIC
PARISH**

**ST. HENRY
CATHOLIC
SCHOOL**

At St. Henry Parish and School, our buildings have long been more than walls and roofs—they are the places where faith is taught, celebrated, and lived each day. Our new capital campaign, Where Faith Gathers, Foundations Matter, reflects this truth. It's a call not only to restore our facilities but to renew our shared mission that brings faith, family, and formation together.

Top Priority Projects

The campaign's top priorities center on vital upgrades to St. Henry School. The largest project, costing approximately \$800,000, will replace the aging boiler system with high-efficiency units and add mini-split air conditioning in every classroom. For our students and teachers, this means consistent comfort and improved energy stewardship—an investment that benefits all who learn and teach here.

A second high-need project addresses the junior high's original windows (\$214,000). The new windows will improve comfort, reduce noise, and increase efficiency while modernizing the exterior appearance.

At the heart of parish life, the main church roof replacement (\$165,000) remains essential to maintain the church's structural soundness. Additionally, the parish gym—used daily for school activities and countless parish gatherings—will be outfitted with two ADA-compliant family restrooms (\$280,000), expanding accessibility for everyone.

Phase Two Initiatives: Safety, Growth, and Community

Phase Two of the campaign emphasizes comfort, functionality, and faith formation. A new 4,600-square-foot rubber playground surface (\$70,000) answers a student-led request for safety improvements on our school grounds. This space will provide a secure, modern area for daily recess and parish gatherings alike.

Meanwhile, the renovation of Benedictine Hall (up to \$900,000) represents one of the most exciting long-term investments. Once complete, the space could serve as a daycare center, meeting hall, or future Adoration Chapel—adapting to parish needs as they evolve. The update of the school's hot water system (\$19,500) and necessary asbestos abatement provide essential behind-the-scenes improvements ensuring ongoing reliability.

Phase Three and Beyond

Upcoming future projects highlight forward-looking stewardship: upgrading the school's electrical systems (\$250,000), installing a more efficient heating solution in the gym (\$66,325), replacing the gym's wood floor (\$150,000), and completing smaller projects like new A/C compressor units and carpet replacement in the choir loft. Together, these efforts will ensure every corner of our parish campus is efficient, safe, and aligned with our mission.

Faith in Action

The theme Where Faith Gathers, Foundations Matter reminds us that our parish is built on more than structures—our foundation is the faith of those who gather here. Every pledge and prayer moves us closer to a campus that serves the needs of children, families, and parishioners today and for many years to come.

Through this campaign, St. Henry Parish reaffirms its commitment to be a place where faith gathers, community grows, and the foundations of our Catholic mission remain strong.
