"St. Henry was where I learned, grew, and built lifelong friendships. I always felt deeply connected to the school community."
- Karen Jara

"Our experience at St. Henry has been truly remarkable, making the transition seamless. My son looks forward to school each day."
-Brittney Lute

"I came to St. Henry in search of a teaching job. I stayed because the job is not work for me. It is taking care of my new family members I've gained in the students, staff and parishioners at St. Henry. It is spreading the love and joy of God to others."
-Brittany Finch

This project is a vital step forward for both St. Henry Parish and our School. By expanding our space and strengthening our resources, we are ensuring that our growing community has the room it needs to learn, pray, and thrive for years to come.

“Their individuality is celebrated, their voices are heard, and their needs — both academic and emotional — are supported with compassion and intention.”

- Jena Quinn-Sexton

As we look to the future, we are launching the capital campaign, *Where Faith Gathers, Foundations Matter*, to address critical needs in our worship, educational and gathering spaces. Our goal is to repair and upgrade essential infrastructure—such as HVAC systems, roofing, and restrooms—while enhancing accessibility, classrooms, and community areas that support our growing parish family.

To help launch this bold endeavor, we have identified the following possible priorities for our campus:

Phase 1: Critical Infrastructure

Our first phase focuses on essential improvements to ensure the safety and functionality of our core facilities. This includes modernizing our school’s HVAC system addressing both heating and cooling needs, installing new windows in our Junior High building, replacing the church roof, and adding handicap-accessible gym restrooms. These fundamental improvements will create a more comfortable environment for worship, learning, and community gatherings. Cost Estimate: \$1.3 million

Phase 2: Campus Enhancement

Building on our strong foundation, we’ll improve our educational and parish community spaces through strategic upgrades. This phase includes creating a safer playground surface for our children, renovating Benedictine Hall for an Adoration Chapel and a day care, and upgrading our hot water systems. These improvements will enhance both the safety and appearance of our campus, and provide additional opportunities to minister to our community. Cost Estimate: \$1.1 million

Phase 3: Comfort, Accessibility and Worship

Our final phase focuses on optimizing comfort and accessibility throughout our facilities. This includes enhancing the electrical systems in Jr. high, improving our gym’s heating system, replacing the wood gym floor, upgrading various A/C compressor units across campus, and replacing the choir loft carpet, if enough funds are raised. These improvements will ensure our spaces remain welcoming and comfortable for generations to come. Cost Estimate: \$450,000-\$600,000

“Witnessing the bonds that exist between all of the students and teachers is amazing.”
